Philosophy for Children

Philosophy for children is a teaching approach with aims to develop and foster children's critical thinking skills in a caring and supportive way. Children take part in class discussions and activities which help them to express themselves, build vocabulary and treat others who have different opinions to them with respect. Every Friday, we will publish on our newsletter a philosophy based question. Please talk about this over the weekend with your child; we will then discuss the questions as a whole school during Collective Worship each Monday.

This week, our philosophy question is:

What makes good music ?

We look forward to hearing the children's ideas!
